# TO DO

Talk to your friends and family. Where do they work? Do they like their job? Are they hiring?

Fill out applications. If you need help, ask a family member or someone on your Transition Team.

# ready to work?

Talk to employees. Be nice, smile, and ask questions.

Practice skills you will need on the job. Will you be washing dishes? Talking to customers? Planting flowers? You can practice those skills at home.

Stay positive! You might not get hired right away, that's OK! Keep smiling and practicing your work skills.
